

# Fingers, nose and toes

*A cheerful dexterous play for the young.*

*Identify and ensure children can put their finger on each named part. As you sing this song to the children, do the actions as they listen and encourage them to copy.*

*Once children are familiar with this song they can make up new verses.*

*This song comes from the Teacher's Handbook, Iowa University Special Education Curriculum Development Center. Published November 1969 [ed036933.tif.pdf](http://ed036933.tif.pdf)*
