

This pretty planet

*This wonderful song by Tom Chapin is more usually sung as a round.
It is also sung as a lullaby.*

This amazing song went round the entire world when it was one of the songs used to wake up the astronauts, including John Glen, on the Discovery 7 space shuttle!

1. Make a ball with hands, roll forearms round each other. 2. Make flower round face, arms make waves, hands together as in prayer. 3. Lift arms up and outwards, as in first line. 4. Hands to cheek, hold arms, Lift arms up and outwards.

This pret - ty plan - et, spin - ning through space, _ Your gar - den, _ your har - bour, _ your hol - y place. _

Gol - den sun go - ing down, _ Gen - tle blue gi - ant spin us a - round. _

All through the night, Safe till the morn - ing light. _ morn - ing light. _

This pretty planet, spinning through space,
Your garden, your harbour, your holy place.
Golden sun going down,
Gentle blue giant spin us around.
All through the night,
Safe 'til the morning light.
