

Turkey trot blues

The Turkey trot blues game is from Liza Meyer's website: [MeyersMusic](http://MeyersMusic.com). Children sit in a circle with a farmer and turkey on the outside and one child in the circle with a drum.

V1. Turkey moves round the circle to the beat with elbow wings flapping freezing at the end. Seated children tap floor for each rest with a loud one at the end for freezing. V2. Farmer strolls round the outside to the beat freezing at the end when the other children shout "Run, turkey, run!" to the drum beat. The farmer then chases the turkey who attempts to run to his place before being caught by the farmer. If caught s/he becomes the next farmer, if they escapes takes the place of the drummer who in turn becomes the the turkey.
