

# Five little Christmas trees

Learn concept of 'one less' with this new action song  
Use fingers, hands and arms to mime the actions in this song.

Words and music by Dany Rosevear ©

Five lit - tle Christ - mas trees Stand - ing straight and tall;  
Stretch out their bran - ches as the snow be - gins to fall. A -  
long comes a wood - cut - ter, He's on his way to town.  
Chip chop! Chip chop! A tree falls down.

Five little Christmas trees Standing straight and tall;  
Stretch out their branches As the snow begins to fall.  
Along comes a woodcutter, He's on his way to town.  
Chip chop! Chip chop! A tree falls down.

Four little Christmas trees...  
Three little Christmas trees...  
Two little Christmas trees...

One little Christmas tree Standing straight and tall;  
Stretches out its branches As the snow begins to fall.  
Along comes a woodcutter, He's on his way to town.  
Chip chop! Chip chop! The tree falls down.

No little Christmas trees Standing straight and tall;  
Where have they gone As the snow softly falls?  
Each one is in a cosy house Decked with Christmas cheer.  
They wish you Merry Christmas And a Happy New Year!
