

One pair of hands

Together we can make a difference.

This song is based on Pete Seeger's 'One man's hands'.

Other words of protest for good causes have been attached to this wonderful song over many years.

It was Marilyn and Paul Wilson's version written with Wren choirs in Devon that caught my imagination.

The words for young children here are written by Dany and Alan Rosevear and the music adapted and arranged by myself.

One pair of hands Can't stop the cli - mate chang - ing, Two pairs of
hands Can't stop the storms from chang - ing, But if two and two and
man - y make a mil - lion Then we can change the world, Then
we can sure - ly change the world.

Chords: C, G, Dm, G, F, Dm, G, C, Am, F, G, C, G, Am, Dm, G, C.

One pair of hands can't stop the climate changing,
Two pairs of hands can't stop the storms from raging;

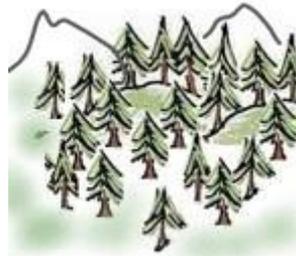

Chorus:

But if two and two and many make a million,
Then we can change the world,
Then we can surely change the world.

One pair of hands can't stop the ice caps melting,
Two pairs of hands can't stop sea waters rising;

One pair of hands can't stop the forests burning,
Two pairs of hands can't stop wildlife from dying;

One pair of hands can't stop the waste from growing,
Two pairs of hands can't keep clean water flowing;

One pair of hands can't stop the car's pollution,
Two pairs of hands won't find the best solution;

One pair of hands can't keep the whales a-spouting;
Two pairs of hands can't keep us all from shouting;

If two and two and many make a million,

Then we can change the world,
Then we can surely change the world.
Then we can surely change the world.
