

Every little bird

<https://rivcrofsong.uk/>

Heed the call of the wild.

All creatures, great and small, have the same basic needs: shelter, air to breathe, food and water and these the Earth provides. But it is us and only us, the human beings, that can ensure that these resources continue to be available to life on our planet and who can maintain nature's natural balance to ensure the survival of life as we know it.

Words and music by Dany Rosevear.

child, Heed the call of the wild, — Love and cher - ish this one Earth we know!" —

Every little bird needs a home to live in,
A hedge or tree will do;
A place that is safe, a place to rest,
Just like me and you!

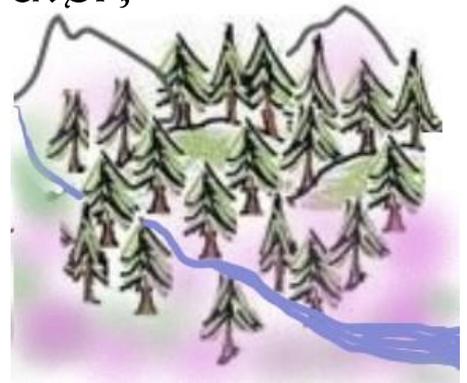

Chorus:

Hear the birds of the air sing a song and a prayer,
“Help our world to thrive and grow;
Be caring my child, heed the call of the wild,
Love and cherish this one Earth we know!”

Every little bird needs the air to roam in,
Rain or shine will do;
Air that is safe, air that’s clean,
Just like me and you! *Chorus*

Every little bird needs to drink fresh water,
A pond or stream will do;
Water that is safe, water that’s clean,
Just like me and you! *Chorus*

Every little bird needs food to live on,
A snail or worm will do;
Food that is safe, food that’s fresh,
Just like me and you! *Chorus*
