

Old grey cat is sleeping

<https://riverofsong.uk/>

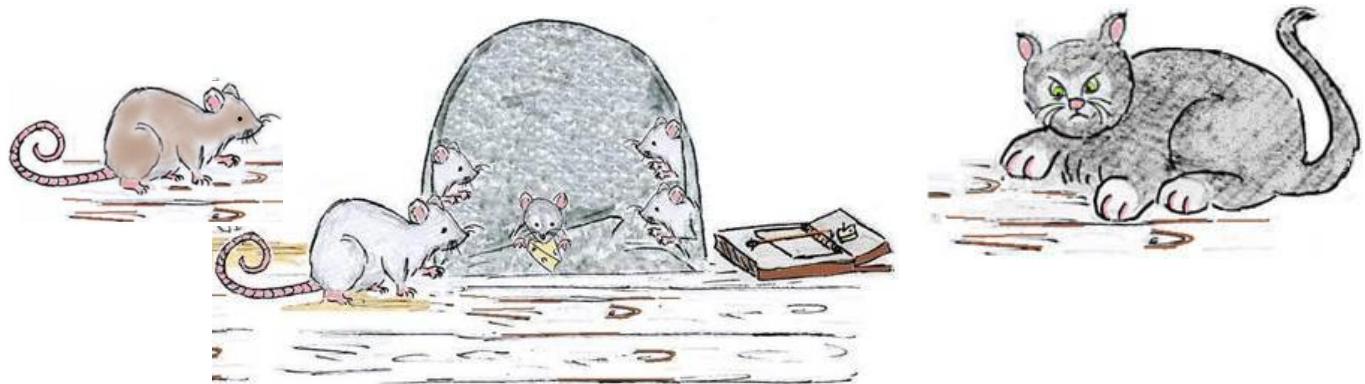

A great song for dramatic activity or 'follow my leader'.

This can be played as a hand rhyme sitting in place – and is best taught this way. As the children become more familiar with the song use the whole room and divide the class into two groups. Sing 'The old grey cats' and each group moves as suggested by the words. If you are playing outside and there are good hiding spots this song could be turned into a 'hide and seek' game.

The old grey cat is sleep - ing, sleep - ing, sleep - ing. The

old grey cat is sleep - ing, in the house.

The old grey cat is sleeping, sleeping, sleeping.

The old grey cat is sleeping in the house.

The little mice come creeping, creeping, creeping.

The little mice come creeping in the house.

The little mice are nibbling, nibbling, nibbling.

The little mice are nibbling in the house.

The little mice are sleeping ... in the house.

The old grey cat comes creeping ... in the house.

The little mice all scamper ... through the house.

The little mice are hiding ... in the house.
