

# Look up, look down

<https://riverofsong.uk/>

*We walk along with blinkers on for much of the day, not even noticing what is in front of us. We need to make time and a conscious effort to see and appreciate what is happening in our vicinity.*

*Encourage young children to notice, to be excited by and name the flora and fauna in their environment.*

Words and music by Dany Rosevear©

Look up, look down, Look ev - ry - where a - round! LOOK

UP... I can see an sea - gull fly, way up in the big blue sky.

## Chorus

Look up, look down,  
Look everywhere around!

## LOOK UP...

I can see a seagull fly,  
Way up in the big blue sky. Chorus

## LOOK DOWN...

I can see a golden worm,  
Hiding underneath a stone. Chorus

## LOOK LEFT...

I can see a small sunflower,  
Growing taller by the hour. Chorus

## LOOK RIGHT...

I can see a busy bee,  
Making honey for my tea. Chorus

## LOOK ALL AROUND...

I can see a world of things,  
If I use my eyes and sing... Chorus
