

# A smile is quite a funny thing

<https://riverofsong.uk/>

*A cheerful contagious community song, without a mask. We all all need cheering up at times like these and that is exactly what a smile can do. How do you make a smile? For starters tell a joke!*

The image shows two staves of musical notation in G major, 4/4 time. The first staff contains the melody for the first line of the song, with lyrics: "A smile is quite a fun - ny thing, It \_\_\_ wrin - kles up your face, And". The second staff contains the melody for the second line, with lyrics: "when its gone you nev - er find Its \_\_\_ sec - ret hid - ing place." Chord symbols (G, D7, C, G7) are placed above the notes.

A smile is quite a funny thing,  
It wrinkles up your face,  
And when it's gone you never find  
Its secret hiding place.

But far more wonderful it is,  
To see what smiles can do.  
You smile at one, he smiles at you,  
And so one smile makes two.

He smiles at someone, since you smiled,  
And then that one smiles back,  
And that one smiles until, in truth,  
You fail in keeping track.

And since a smile can do great good,  
By cheering hearts of care.  
Let's smile and not forget the fact  
That smiles go everywhere.
