

# The finger family

<https://riverofsong.uk/>

*A simple hand play.*

*Personalising the fingers is very popular with young children.  
All families are different so encourage children to adapt this  
to make it more like their own.*

*Adapted here by Dany Rosevear.*

**Point to one raised digit at a time starting with the thumb.**

**Last line: Wiggle all fingers.**

This is father short and stout,  
This is mother who sorts us out,  
This is brother, tall you see,  
This is sister you'll agree,  
This is baby, sure to grow,  
And here is our family all in a row.
