

There's an upside to each downside

<https://riverofsong.uk/>

Look on the bright side of life with this cheerful hand play. Not always the easiest thing to do but open your eyes, feel the air and there will be many other little things outside to touch the spirit and make life feel good.

Make the most of it. Use Autumn coloured scarves to swirl and move around in the second part.

The first four lines were found somewhere online but they seem to have disappeared into the ether. Music and last couplet by Dany Rosevear.

The musical score is written on three staves in 3/4 time. The first staff contains the first line of the song, with chords C, F, C, and F. The second staff contains the second line, with chords C, G7, C, and Am. The third staff contains the third line, with chords Am, E, Am, Dm, and Am. The lyrics are written below the notes.

There's an up - side to each down - side, Just look a - round and see; When Sum - mer ends and

Aut - umn comes Leaves of man - y col - ours dress the trees. Whirl - ling and swirl - ing

Aut - umn has come, Col - ours bright, leaves in flight, fist - fuls of fun!

There's an upside to each downside,
Just look around and see;
As summer ends and Autumn comes
Leaves of many colours dress the trees.
*Whirling and swirling Autumn has come,
Colours bright, leaves in flight, fistfuls of fun.*
