

Little river of song

<https://riverofsong.uk/>

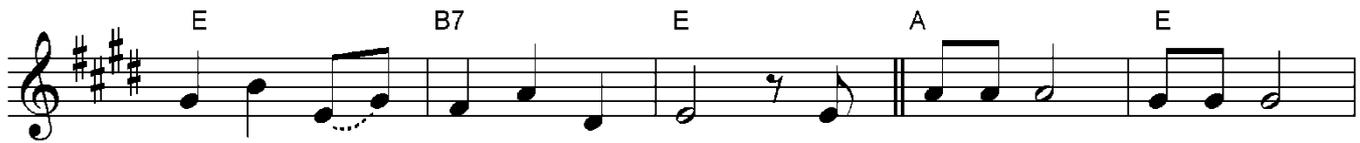

Listen to the music around you on a countryside walk or in other green spaces. The natural world and all its flora and fauna sing in joyous harmony when it is loved, appreciated and cared for. We too are part of that harmony and need to play our part to ensure future generations can hear Earth's precious songs. Choose suitable percussion to accompany and mimic these sounds.

Words and music by Dany Rosevear.

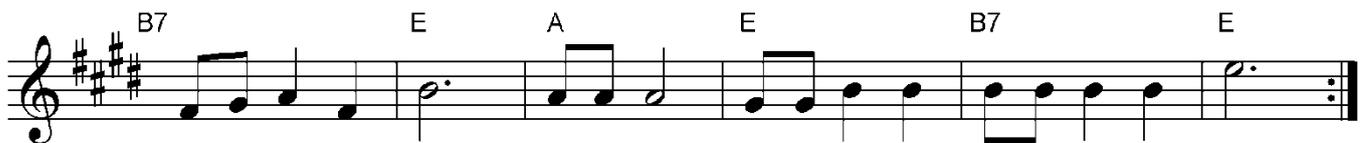

1. With palms together weave hands along in wide movements. 2. Place one hand on top of the other with thumbs out, move as before. 3. Open and close hands to croak then make hop along. 4. Dance in a circle.
