

Go to sleep my baby

<https://riverofsong.uk/>

A lullaby from my childhood, not quite sure if these are the same words sung to me so long ago as there have been so many changes since 'A Wyoming lullaby' was first written by Gene Williams in 1920. See: <https://mudcat.org/thread.cfm?threadid=31222>.

Go to sleep my ba - by, — Close your pret - ty eyes, — Ang - els up a - bove you, —
Peep - ing at you from the star - ry skies. — Great big moon is shin - ing, —
Stars be - gin to peep, — Time for sleep - y - heads, like you dear, To go to sleep. La -
la, la - la - la - la, la - la - la - la, la. Time for sleep - y - heads, to go to sleep. —

Go to sleep my baby, ,
Close your pretty eyes,
Angels up above you,
Peeping at you from the starry skies.
Great big moon is shining,
Stars begin to peep.
Time for sleepy heads, like you dear,
To go to sleep.
La-la, la-la-la-la, la-la-la-la, la.
Time for sleepy heads, to go to sleep.
