The second verse collected by the Opie's was considered a forerunner of the previous one.

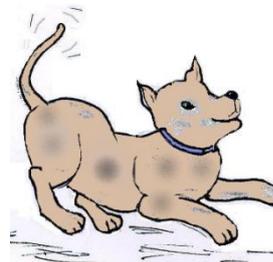

- 1. Circle babies upturned palm with forefinger.*
- 2. Walk up arm with first two fingers.*
- 3. Pause before the tickle under the armpit.*

Round and round the garden
Like a teddy bear.
One step, two steps,
Tickly under there.

Round about there,
Sat a little hare.
The bow-wows came and chased him
Right up there.

Round and round the haystack,
Went the little mouse,
One step, two steps,
In his little house.
