

Our planet is a garden

<https://riverofsong.uk/>

Everyone making small changes can make a big difference.

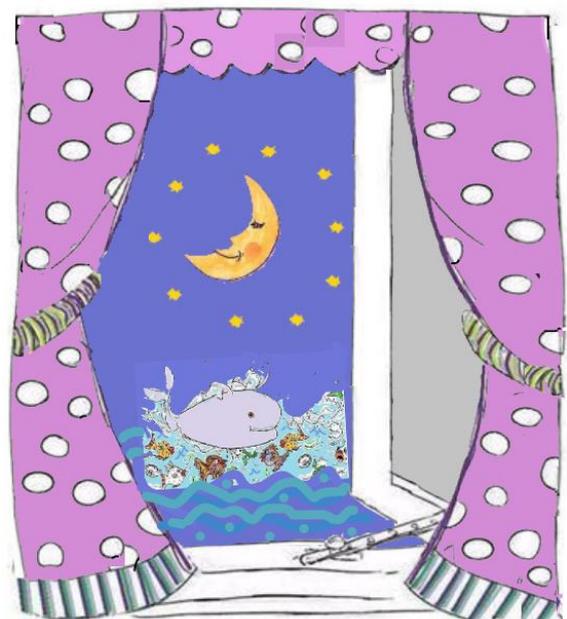

Written by Dany Rosevear as a request from a preschool for a song about climate change. We are never too young to consider what we can do to make a difference to the future of our home called Earth.

Line 1. Sweep out hands, cross hands at wrists and flap. 2. One hand on top of the other with thumbs out, make hands dip and dive. Point to others and self. 3. Shape a ball, put hands to heart. 4. Throw out hands. Chorus: Wag finger. Stamp three times and hold nose. Beat fists three times.

Verse 2. Hold arms and shiver, prowl, forefingers to mouth, shake elbows, hands to head with fingers outstretched then as before.

Verse 3. Make hands and arms into trees, hand to ears, scratch armpits, wave arm for trunk then as before.

The musical score is written in G major, 4/4 time. It consists of seven staves of music with lyrics underneath. The lyrics are: "All a - cross our love - ly world the lit - tle bird - ies fly, The fish - es swim, the dol - phins leap and so do you and I. Our plan - et is a gar - den, need - ing ten - der love and care, And if we all make chan - ges, we can make it fit to share. No more dir - ty air and wa - ter, No more dir - ty air and wa - ter, No more dir - ty air and wa - ter, Our love - ly world needs ev - 'ry - one To help and fix it quick!"

All across our lovely world the little birdies fly,
The fishes swim, the dolphins leap and so do you and I.
Our planet is a garden needing tender love and care,
And if we all make changes we can make it fit to share.
No more dirty air and water,
No more dirty air and water,
No more dirty air and water,
Our lovely world needs everyone,
To help and fix it quick!

All across our icy lands the polar bears can roam,
The walruses, the penguins and the reindeer have a home.
Our planet is a garden needing tender love and care,
And if we all make changes we can make it fit to share.
No more dirty air and water,
No more dirty air and water,
No more dirty air and water,
Our lovely world needs everyone,
To help and fix it quick!

All across our wooded lands the jungle creatures call,
Monkeys screech, and elephants, oh, how we love them all.
Our planet is a garden needing tender love and care,
And if we all make changes we can make it fit to share.
No more dirty air and water,
No more dirty air and water,
No more dirty air and water,
Our lovely world needs everyone,
To help and fix it quick!
