

Fly like an eagle

<https://riverofsong.uk/>

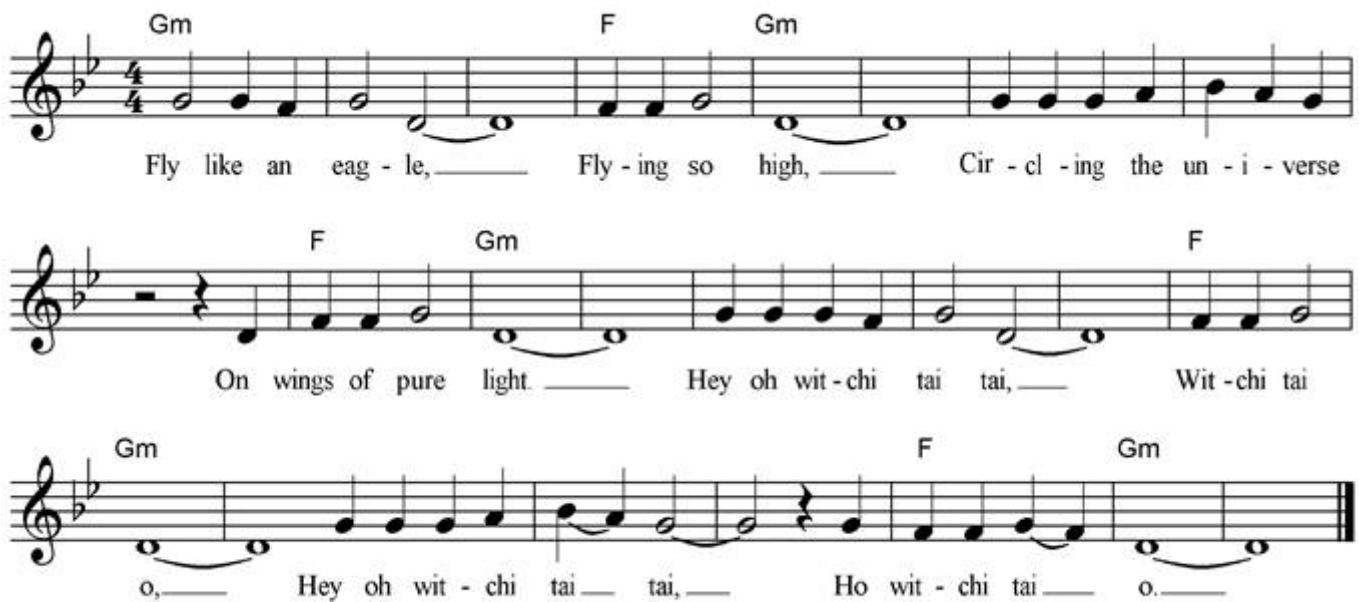

This song is great to sing as a call and response and is often accompanied by a dance as below.

It is a traditional Great Plains Native American with English words.

Two of the English verses have been modified by Dany Rosevear.

Dance in a circle with side steps; accompany with the movements of the eagle, salmon and bear. On the last couplet come together with hands raised, then still holding hands bow outwards.

Be silent like the salmon, *Swimming swift and bright,*
Dart and glow like the firefly, *Children of the light.*

Be brave like the bison, *Walking on the plains.*
We can make a better world; *Together, once again.*

We all fly like eagles, *Flying so high,*
Circling the universe, *On wings of pure love.*
