Staff 1: We saw a young squir - rel right here in our wood, It tried to find

Staff 2: food as a good squir - rel should, As a good squir - rel should, as a good squir - rel

Staff 3: should, It tried to find food as a good squir - rel should.

We saw a young squirrel right here in our wood,
It tried to find food as a good squirrel should,
As a good squirrel should, as a good squirrel should,
It tried to find food as a good squirrel should.

The wind it was shaking the nuts from the trees!
One dropped on his nose and made squirrel sneeze,
It made squirrel sneeze, it made squirrel sneeze.
One dropped on his nose and made squirrel sneeze.

It picked them all up, yes it did, with its toes,
And laid them in order in beautiful rows,
In beautiful rows, in beautiful rows,
And laid them in order in beautiful rows,

It knelt in the grass and there made a nest,
It ate all the nuts and sat down to rest,
And sat down to rest and sat down to rest,
It ate all the nuts and sat down to rest,

It dropped off to sleep that warm afternoon,
And slept on and on till the middle of June!
The middle of June, the middle of June,
And slept on and on till the middle of June!
