

As one under the sun

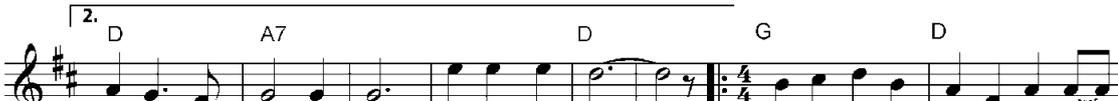

<https://riverofsong.uk/>

Sing in harmony with the world and its inhabitants. Only as one can we thrive in this tiny part of the universe for we are all part of a web of life. Everything we and other living things do makes an impact; it affects the very survival of our world as a place of peace and safety and one where we would wish to live.

Words and music by Dany Rosevear.

 We are as one, un - der the sun, Our World is call - ing, come beat the drum.

*Chorus: We are as one, under the sun,
Our World is calling, come beat the drum.
We are the earth, we are the sea,
We are the ocean, wild, brave and free.*

*Big or small we play a part,
In the web of life we weave;
The way we live, the way we love
Our one big family.
Each of us must find the will,
Wherever it may be;
To shine a light when darkness strikes
To live in harmony. Chorus*

*A bear is large, an ant is small,
Likewise the honey bee,
But each of them their role rings loud
In our one big family.
The octopus, the great blue whale,
The fishes in the sea.
Beneath the waves their songs of love,
Sing out in harmony. Chorus*
