

Five snow angels

<https://riverofsong.uk/>

Snow angels weren't around when I was young, I've only recently discovered them with my grandchildren.

What happens to those snow angels and snowmen at the end of the day; this song will keep you guessing unless you know about the water cycle and changing weather patterns!

Make snow angels in the snow by lying down and moving arms up and down. You are likely to get wet so make sure you have your waterproofs on!

Tune: Traditional
Words: Dany Rosevear ©

Five snow an - gels in my gar - den lay, Sleep - ing so quiet - ly 'til the
end of day. One saw the dark - 'ning sky, it's true,
Soft - ly, gent - ly, up and up it flew.

Five snow angels in my garden lay;
Sleeping so quietly 'til the end of day.
One saw the dark'ning sky, it's true,
Softly, gently, up and up it flew.

Four snow angels...
One heard a barn owl hoot, it's true....

Three snow angels...
One saw the twinkling stars, it's true....

Two snow angels...
One saw a comet zoom, it's true....

One snow angel...
It saw the shy moon smile, it's true....

The sun is up and we'd like to know,
Where, oh where, did our snow angels go?
Then five white clouds sailed silently by,
I'm sure, so sure, one cloud winked an eye!
I'm sure, so sure, one cloud winked an eye!
