

# Dear friends

*Feel the love for our friends, family and fellow beings.*

*St. Valentine's Day is celebrated in mid February when there is a skip in our hearts as Spring begins and love is in the air; a good time to remember that love isn't just for family and a chosen few but that other friends and acquaintances are worthy of our love and fellow feeling.*

*Words and music by Dany Rosevear.*

**1. Play as a circle dance holding hands and swinging them gently in and out. Or 2. Stand opposite each other in pairs holding and swinging hands and then on the last line 'toss the blanket', swing hands over heads. Find another partner and then continue.**

It may be cold, there may be chills, But it's ear - ly Spring and there's daf - fo -

dils, Dan - cing daf - fo - dils! La la la, la la la, La la la,

la la la, la la la, La la la, la la la, La la, la la la, la.

Dan - cing daf - fo - dils!
