

Star flower

<https://riverofsong.uk/>

A beautiful gentle poetic song written by Malvina Reynolds.

There are many flowers that have this shape but the "star flower" here represents nature's quiet charm and fortitude. [1].

There is so much wonder to be found in a packet of seeds, many types of flowers can be grown from these little bits of magic. Each time the word 'star' is sung add a gentle ringing sound from a bell, triangle or other similar percussion.

Star flow - er O, Star flow - er O, Star flow - er in the ground O, Who would e - ver know
such a flow - er O, Would be shin - ing all a - round O, Shin - ing all a - round?

Star flower O, star flower O,
Star flower in the ground O,
Who would ever know such a flower O
Would be shining all around O,
Shining all around.

Star flower O, star flower O,
Star flower by the reed O,
Who would ever know such a flower O
Would be hiding in a seed O,
Hiding in a seed.
