

Jump in the leaves

<https://rivzrofsong.uk/>

Get active outside and appreciate how leaves can be made into compost to help other plants grow. Words by Derek Pearson to a traditional tune.

Oh, I love to jump in the leaves,
Oh, I love to jump in the leaves,
Oh, I love to jump in the leaves,
Let's all jump in together.

Rake them up to make a big pile...
Let's rake them all together.

In the sacks we pack the leaves...
To make them into compost.

And then when it is rotted down....
We'll spread it round the garden.

Then we'll watch the plants all grow...
To give us food and flowers.
