Snowflakes

https://riverofsong.uk/

There is wonder in both stars and snowflakes. This song by third-generation Finnish American Ruth-Esther Hillila, appears in The Magic of Music Book 2.
Use finger cymbals to suggest the 'sound' of falling snow.
Musical arrangement by Dany Rosevear.

I cannot reach the stars,
But they fall down on me,
When in each shiny snow flake
A little star I see.

They sparkle so brightly,
They drift oh, so lightly.
I turn my face up
To feel them fall.

I cannot reach the stars,
B ut they fall down on me,
When in each shiny snow flake
A little star I see.
